# Full Stack Developer

## Work Experience

Iraq, Baghdad  
Yaman Al-Khair  
UX/UI Design & Web Development

- I worked on designing and developing websites and applications, ensuring they are fully responsive and deliver an optimal user experience across all devices.
- I utilized Figma and Photoshop, while for front-end development, I employed React and Tailwind.

Iraq, Baghdad  
Qaf  
UX/UI Design | Mobile & Website Developer

- I used GoLang for backend development and to build APIs and PostgreSQL for storing data.
- I also used React Native to make applications for IOS and Android systems.
